Bellway (West Lancs) working with Landscape Planning Ltd

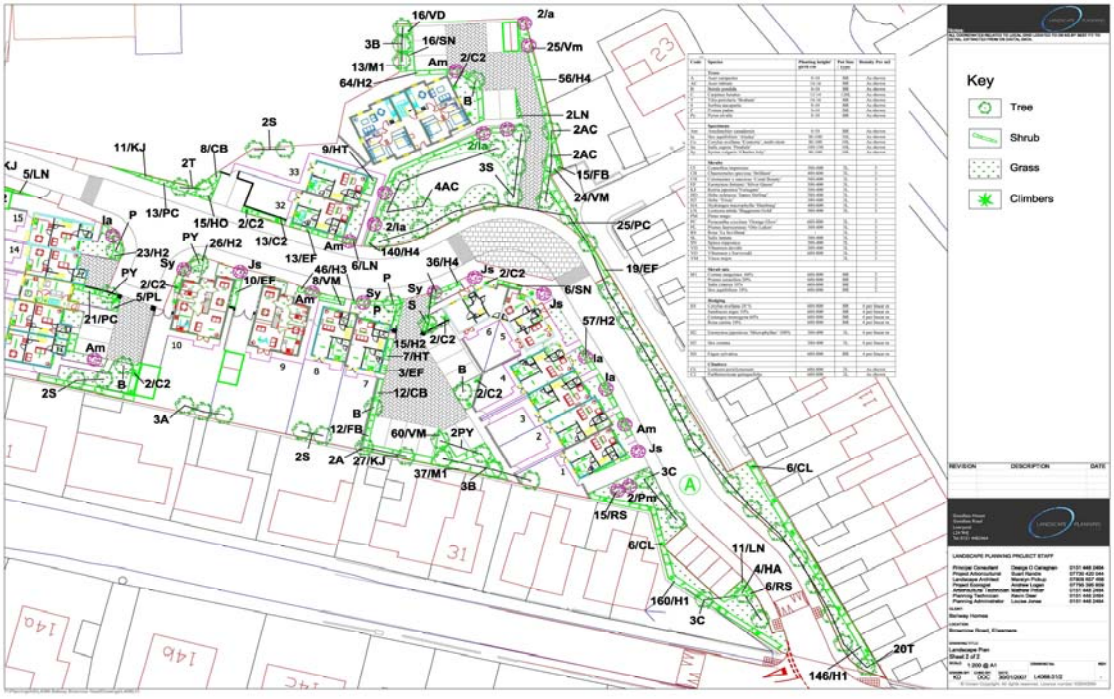
Landscape Planning Ltd is a multi-disciplinary consultancy dealing with Arboriculture, Ecology and Landscape Architecture. From offices in Liverpool, Colchester and Reading we cover the UK providing planning process support to developers.

The proactive approach our consultants take to sites lends itself well to our early involvement with a project, thereby ensuring that the development window can be mapped out from the earliest stage.

When we look at the trees on site we take into account so much more than the obvious e.g., are their nesting birds that cannot be moved, will the planners require an ecological walkover survey, and will there be a need for a Landscape Character Assessment?

Coordinating the three discipline of Arboriculture, Ecology and Landscape Architecture results in reduced uncertainty for our clients and a clearer direction for development of sites.

We work closely with the Bellway West Lancs office in Liverpool and some of the recent schemes Landscape Planning have been involved with are pictured below.



Brownlow Road, Ellesmere —Planting scheme

Landscape Planning Ltd
9 Phoenix Square
Colchester Business Park

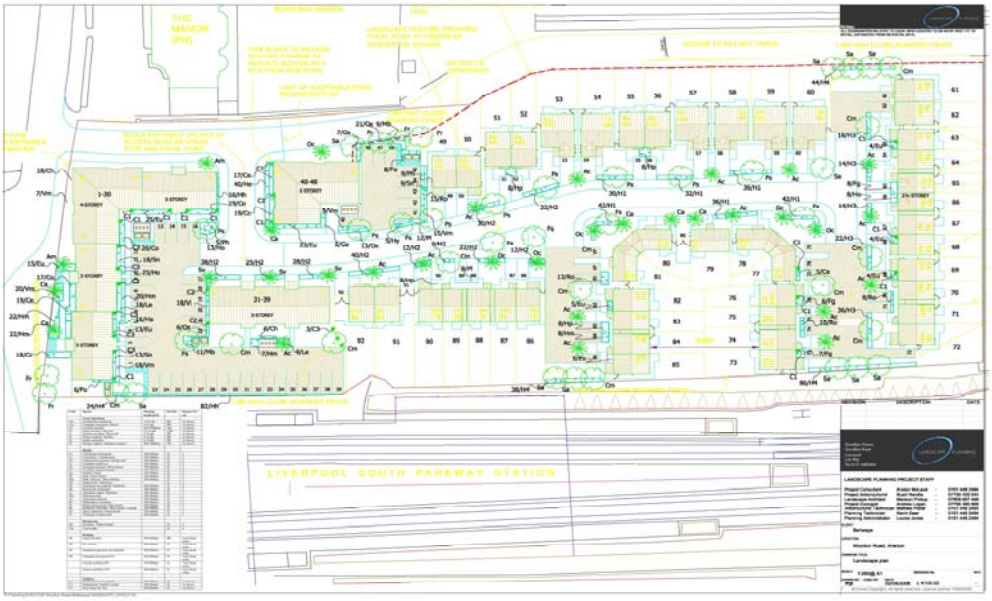
Bellway (West Lancs) working with Landscape Planning Ltd



Woolton Road, Allerton—Planting Scheme

"During the past few years we have worked with Bellway's West Lancs office on a number of very different sites. We have covered issues from protected trees within sites to bat surveys required on buildings due to be demolished. Whatever the issue we have always had one thing in mind—get the project completed with the minimum of delay and highlight action required to ensure Bellway's objectives are achieved."

"I look forward to our consultants working with the design team at Bellway on future projects"
Dave Jones, Business Development Manager, Landscape Planning

Andrew Darbyshire of Bellway Liverpool had the following to say about Landscape Planning Ltd:

"Bellway are more than satisfied with the Landscape design schemes provided by Landscape Planning. The wide range of services offered by their consultants are extremely beneficial to any construction project irrespective of size"
